PART I INTRODUCTION TO ECONOMICS 2

Chapter 1: The Principles and Practice of Economics 2

1.1 The Scope of Economics	3
Economic Agents and Economic Resources	3
Definition of Economics	4
Positive Economics and Normative Economics	5
Microeconomics and Macroeconomics	6
1.2 Three Principles of Economics	6
1.3 The First Principle of Economics: Optimization	7
Trade-offs and Budget Constraints	8
Opportunity Cost	9
Cost-Benefit Analysis	10
Evidence-Based Economics: Is Facebook free?	11
1.4 The Second Principle of Economics: Equilibrium	13
The Free-Rider Problem	14
1.5 The Third Principle of Economics: Empiricism	15
1.6 Is Economics Good for You?	16
Summary	17
Key Terms	17
Questions	17
Problems	18

Chapter 2: Economic Methods and Economic Questions 20

2.1 The Scientific Method	21
Models and Data	21
An Economic Model	23
Evidence-Based Economics: How much more do workers with a college education earn?	24
Means and Medians	25
Argument by Anecdote	25
2.2 Causation and Correlation	26
The Red Ad Blues	26
Causation versus Correlation	26
Choice & Consequence: Spend Now and Pay Later?	29
Experimental Economics and Natural Experiments	29

Evidence-Based Economics: How much do wages increase when mandatory schooling laws force people to get an extra year of schooling?	30
---	----

2.3 Economic Questions and Answers	31
Summary	32
Key Terms	33
Questions	33
Problems	33

Appendix: Constructing and Interpreting Charts and Graphs	35
A Study about Incentives	35
Experimental Design	35
Describing Variables	36
Cause and Effect	38
Appendix Key Terms	41
Appendix Problems	41

Chapter 3: Optimization: Doing the Best You Can 42

3.1 Optimization: Choosing the Best Feasible Option	43
Choice & Consequence: Do People Really Optimize?	44
3.2 Optimization Application: Renting the Optimal Apartment	44
Before and After Comparisons	47
3.3 Optimization Using Marginal Analysis	48
Marginal Cost	49
Evidence-Based Economics: How does location affect the rental cost of housing?	52
Summary	55
Key Terms	56
Questions	56
Problems	56

Chapter 4: Demand, Supply, and Equilibrium 58

4.1 Markets	59
Competitive Markets	60
4.2 How Do Buyers Behave?	61
Demand Curves	62
Willingness to Pay	62

From Individual Demand Curves to Aggregated Demand Curves	63	The Income Elasticity of Demand	10
Building the Market Demand Curve	64	Letting the Data Speak: Should McDonald's Be Interested in Elasticities?	107
Shifting the Demand Curve	65	<i>Summary</i>	107
Evidence-Based Economics: How much more gasoline would people buy if its price were lower?	67	<i>Key Terms</i>	108
4.3 How Do Sellers Behave?	69	<i>Questions</i>	108
Supply Curves	69	<i>Problems</i>	109
Willingness to Accept	69	Appendix: Representing Preferences with Indifference Curves: Another Use of the Budget Constraint	111
From the Individual Supply Curve to the Market Supply Curve	70	<i>Appendix Questions</i>	113
Shifting the Supply Curve	71	<i>Appendix Key Terms</i>	113
4.4 Supply and Demand in Equilibrium	73	Chapter 6: Sellers and Incentives	114
Curve Shifting in Competitive Equilibrium	75	6.1 Sellers in a Perfectly Competitive Market	115
Letting the Data Speak: Technological Breakthroughs Drive Down the Equilibrium Price of Oil	76	6.2 The Seller's Problem	115
4.5 What Would Happen If the Government Tried to Dictate the Price of Gasoline?	78	Making the Goods: How Inputs Are Turned into Outputs	116
Choice & Consequence: The Unintended Consequences of Fixing Market Prices	80	The Cost of Doing Business: Introducing Cost Curves	118
<i>Summary</i>	81	The Rewards of Doing Business: Introducing Revenue Curves	120
<i>Key Terms</i>	82	Putting It All Together: Using the Three Components to Do the Best You Can	121
<i>Questions</i>	82	Choice & Consequence: Maximizing Total Profit, Not Per-Unit Profit	123
<i>Problems</i>	83	6.3 From the Seller's Problem to the Supply Curve	124
PART II FOUNDATIONS OF MICROECONOMICS	86	Price Elasticity of Supply	124
Chapter 5: Consumers and Incentives	86	Shutdown	125
5.1 The Buyer's Problem	87	Choice & Consequence: Marginal Decision Makers Ignore Sunk Costs	127
What You Like	87	6.4 Producer Surplus	127
Prices of Goods and Services	88	6.5 From the Short Run to the Long Run	129
Choice & Consequence: Absolutes Versus Percentages	88	Long-Run Supply Curve	130
How Much Money You Have to Spend	89	Choice & Consequence: Visiting a Car Manufacturing Plant	130
5.2 Putting It All Together	90	6.6 From the Firm to the Market: Long-Run Competitive Equilibrium	131
Price Changes	92	Firm Entry	131
Income Changes	93	Firm Exit	133
5.3 From the Buyer's Problem to the Demand Curve	94	Zero Profits in the Long Run	133
5.4 Consumer Surplus	95	Economic Profit Versus Accounting Profit	134
An Empty Feeling: Loss in Consumer Surplus When Price Increases	96	Evidence-Based Economics: How would an ethanol subsidy affect ethanol producers?	135
Evidence-Based Economics: Would a smoker quit the habit for \$100 per month?	97	<i>Summary</i>	138
5.5 Demand Elasticities	100	<i>Key Terms</i>	139
The Price Elasticity of Demand	100	<i>Questions</i>	139
The Cross-Price Elasticity of Demand	105	<i>Problems</i>	140
		Appendix: When Firms Have Different Cost Structures	142

Chapter 7: Perfect Competition and the Invisible Hand 144

7.1 Perfect Competition and Efficiency	145
Social Surplus	146
Pareto Efficiency	147
7.2 Extending the Reach of the Invisible Hand: From the Individual to the Firm	148
7.3 Extending the Reach of the Invisible Hand: Allocation of Resources Across Industries	152
7.4 Prices Guide the Invisible Hand	154
Deadweight Loss	156
Evidence-Based Economics: Do companies like Uber make use of the invisible hand?	157
The Command Economy	161
Choice & Consequence: FEMA and Walmart After Katrina	161
The Central Planner	163
Choice & Consequence: Command and Control at Kmart	164
7.5 Equity and Efficiency	164
Evidence-Based Economics: Can markets composed of only self-interested people maximize the overall well-being of society?	165
Summary	169
Key Terms	169
Questions	169
Problems	170

Chapter 8: Trade 172

8.1 The Production Possibilities Curve	173
Calculating Opportunity Cost	175
8.2 The Basis for Trade: Comparative Advantage	176
Specialization	177
Absolute Advantage	177
Choice & Consequence: An Experiment on Comparative Advantage	178
The Price of the Trade	179
8.3 Trade Between States	180
Choice & Consequence: Should LeBron James Paint His Own House?	181
Economy-Wide PPC	182
Comparative Advantage and Specialization Among States	183
8.4 Trade Between Countries	184
Determinants of Trade Between Countries	186
Letting the Data Speak: Fair Trade Products	187
Exporting Nations: Winners and Losers	187
Importing Nations: Winners and Losers	188
Where Do World Prices Come From?	189

Determinants of a Country's Comparative Advantage	190
8.5 Arguments Against Free Trade	190
National Security Concerns	190
Fear of Globalization	191
Environmental and Resource Concerns	191
Infant Industry Arguments	191
The Effects of Tariffs	191
Choice & Consequence: Tariffs Affect Trade Between Firms	193
Evidence-Based Economics: Will free trade cause you to lose your job?	194
Summary	196
Key Terms	196
Questions	196
Problems	197

Chapter 9: Externalities and Public Goods 200

9.1 Externalities	201
A "Broken" Invisible Hand: Negative Externalities	202
A "Broken" Invisible Hand: Positive Externalities	204
Pecuniary Externalities	206
Choice & Consequence: Positive Externalities in Spots You Never Imagined	206
9.2 Private Solutions to Externalities	207
Private Solution: Bargaining	208
The Coase Theorem	208
Private Solution: Doing the Right Thing	209
9.3 Government Solutions to Externalities	210
Government Regulation:	
Command-and-Control Policies	210
Evidence-Based Economics: What can the government do to lower the number of earthquakes in Oklahoma?	211
Government Regulation: Market-Based Approaches	213
Corrective Taxes	213
Corrective Subsidies	214
Letting the Data Speak: How to Value Externalities	215
Letting the Data Speak: Pay as You Throw: Consumers Create Negative Externalities Too!	216
9.4 Public Goods	216
Government Provision of Public Goods	218
Choice & Consequence: The Free-Rider's Dilemma	218
Private Provision of Public Goods	220
9.5 Common Pool Resource Goods	222
Choice & Consequence: Tragedy of the Commons	223
Choice & Consequence: The Race to Fish	224

Evidence-Based Economics: How can the Queen of England lower her commute time to Wembley Stadium?	225	Choice & Consequence: Producing Web Sites and Computer Programs	266
Summary	226	Labor Market Equilibrium: Supply Meets Demand	266
Key Terms	227	Letting the Data Speak: “Get Your Hot Dogs Here!”	266
Questions	227	Labor Demand Shifters	267
Problems	227	Factors That Shift Labor Supply	268
Chapter 10: The Government in the Economy: Taxation and Regulation	230	Letting the Data Speak: Do Wages Really Go Down If Labor Supply Increases?	269
10.1 Taxation and Government Spending in the United States	231	11.3 Wage Inequality	269
Where Does the Money Come From?	232	Differences in Human Capital	270
Why Does the Government Tax and Spend?	234	Choice & Consequence: Paying for Worker Training	271
Choice & Consequence: The Government Budget Constraint	235	Differences in Compensating Wage Differentials	271
Letting the Data Speak: Understanding Federal Income Tax Brackets	236	Discrimination in the Job Market	271
Letting the Data Speak: Reducing Inequality the Scandinavian Way	239	Choice & Consequence: Compensating Wage Differentials	273
Taxation: Tax Incidence and Deadweight Losses	240	Changes in Wage Inequality over Time	274
Choice & Consequence: The Deadweight Loss Depends on the Tax	243	Letting the Data Speak: Broadband and Inequality	275
10.2 Regulation	245	11.4 The Market for Other Factors of Production: Physical Capital and Land	275
Direct Regulation	245	Letting the Data Speak: The Top 1 Percent Share and Capital Income	277
10.3 Government Failures	248	Evidence-Based Economics: Is there discrimination in the labor market?	278
The Direct Costs of Bureaucracies	249	Summary	280
Corruption	249	Key Terms	280
Underground Economy	250	Questions	281
10.4 Equity Versus Efficiency	250	Problems	281
10.5 Consumer Sovereignty and Paternalism	252	PART III MARKET STRUCTURE	284
The Debate	252	Chapter 12: Monopoly	284
Evidence-Based Economics: What is the optimal size of government?	253	12.1 Introducing a New Market Structure	285
Letting the Data Speak: The Efficiency of Government Versus Privately Run Expeditions	255	12.2 Sources of Market Power	285
Choice & Consequence: Taxation and Innovation	255	Legal Market Power	286
Summary	256	Natural Market Power	287
Key Terms	256	Control of Key Resources	287
Questions	256	Choice & Consequence: Barriers to Entry Lurk Everywhere	287
Problems	257	Economies of Scale	288
Chapter 11: Markets for Factors of Production	260	12.3 The Monopolist’s Problem	289
11.1 The Competitive Labor Market	261	Revenue Curves	290
The Demand for Labor	261	Price, Marginal Revenue, and Total Revenue	292
11.2 The Supply of Labor: Your Labor-Leisure Trade-off	264	12.4 Choosing the Optimal Quantity and Price	294
		Producing the Optimal Quantity	294
		Setting the Optimal Price	294

How a Monopolist Calculates Profits	296
Does a Monopoly Have a Supply Curve?	296
12.5 The “Broken” Invisible Hand: The Cost of Monopoly	297
12.6 Restoring Efficiency	298
Three Degrees of Price Discrimination	299
Letting the Data Speak: Third-Degree Price Discrimination in Action	301
12.7 Government Policy Toward Monopoly	302
The Microsoft Case	302
Price Regulation	303
Evidence-Based Economics: Can a monopoly ever be good for society?	304
Summary	306
Key Terms	306
Questions	307
Problems	307

Chapter 13: Game Theory and Strategic Play 310

13.1 Simultaneous-Move Games	311
Best Responses and the Prisoners’ Dilemma	312
Dominant Strategies and Dominant Strategy Equilibrium	313
Games without Dominant Strategies	313
13.2 Nash Equilibrium	315
Finding a Nash Equilibrium	316
Choice & Consequence: Work or Surf?	317
13.3 Applications of Nash Equilibria	317
Tragedy of the Commons Revisited	318
Zero-Sum Games	318
13.4 How Do People Actually Play Such Games?	320
Game Theory in Penalty Kicks	320
Evidence-Based Economics: Is there value in putting yourself in someone else’s shoes?	321
13.5 Extensive-Form Games	323
Backward Induction	324
First-Mover Advantage, Commitment, and Vengeance	325
Evidence-Based Economics: Is there value in putting yourself in someone else’s shoes in extensive-form games?	326
Choice & Consequence: There Is More to Life Than Money	329
Summary	330
Key Terms	330
Questions	330
Problems	331

Chapter 14: Oligopoly and Monopolistic Competition 334

14.1 Two More Market Structures	335
14.2 Oligopoly	336
The Oligopolist’s Problem	337
Oligopoly Model with Homogeneous Products	337
Doing the Best You Can: How Should You Price to Maximize Profits?	338
Oligopoly Model with Differentiated Products	339
Letting the Data Speak: Airline Price Wars	341
Collusion: Another Way to Keep Prices High	341
Letting the Data Speak: Apple versus Samsung	342
Letting the Data Speak: To Cheat or Not to Cheat: That Is the Question	344
Choice & Consequence: Collusion in Practice	346
14.3 Monopolistic Competition	346
The Monopolistic Competitor’s Problem	346
Doing the Best You Can: How a Monopolistic Competitor Maximizes Profits	347
Letting the Data Speak: Why Do Some Firms Advertise and Some Don’t?	348
How a Monopolistic Competitor Calculates Profits	348
Long-Run Equilibrium in a Monopolistically Competitive Industry	349
14.4 The “Broken” Invisible Hand	351
Regulating Market Power	352
14.5 Summing Up: Four Market Structures	353
Evidence-Based Economics: How many firms are necessary to make a market competitive?	354
Summary	356
Key Terms	357
Questions	357
Problems	357

PART IV EXTENDING THE MICROECONOMIC TOOLBOX 360

Chapter 15: Trade-offs Involving Time and Risk 360

15.1 Modeling Time and Risk	361
15.2 The Time Value of Money	362
Future Value and the Compounding of Interest	362
Borrowing Versus Lending	364
Present Value and Discounting	365

15.3 Time Preferences	367	Letting the Data Speak: Moral Hazard	392
Time Discounting	367	Among Job Seekers	392
Preference Reversals	368	Crime and Punishment as a Principal–Agent Problem	392
Choice & Consequence: Failing to Anticipate Preference Reversals	369	Summary	393
Evidence-Based Economics: Do people exhibit a preference for immediate gratification?	369	Key Terms	393
15.4 Probability and Risk	370	Questions	393
Roulette Wheels and Probabilities	370	Problems	393
Independence and the Gambler’s Fallacy	371	Chapter 17: Auctions and Bargaining	396
Letting the Data Speak: Roulette Wheels and Elections	371	17.1 Auctions	398
Expected Value	372	Types of Auctions	399
Extended Warranties	373	Open Outcry: English Auctions	400
Choice & Consequence: Is Gambling Worthwhile?	373	Letting the Data Speak: To Snipe or Not to Snipe?	401
15.5 Risk Preferences	374	Open Outcry: Dutch Auctions	401
Summary	375	Sealed Bid: First-Price Auctions	403
Key Terms	376	Sealed Bid: Second-Price Auctions	403
Questions	376	The Revenue Equivalence Theorem	405
Problems	376	Evidence-Based Economics: How should you bid in an eBay auction?	406
Chapter 16: The Economics of Information	378	17.2 Bargaining	407
16.1 Asymmetric Information	379	What Determines Bargaining Outcomes?	407
Hidden Characteristics: Adverse Selection in the Used Car Market	380	Bargaining in Action: The Ultimatum Game	408
Hidden Characteristics: Adverse Selection in the Health Insurance Market	381	Bargaining and the Coase Theorem	410
Market Solutions to Adverse Selection: Signaling	382	Evidence-Based Economics: Who determines how the household spends its money?	411
Choice & Consequence: Are You Sending a Signal Right Now?	383	Letting the Data Speak: Sex Ratios Change Bargaining Power Too	413
Evidence-Based Economics: Why do new cars lose considerable value the minute they are driven off the lot?	383	Summary	413
Choice & Consequence: A Tale of a Tail	385	Key Terms	413
16.2 Hidden Actions: Markets with Moral Hazard	385	Questions	413
Letting the Data Speak: Moral Hazard on Your Bike	386	Problems	414
Market Solutions to Moral Hazard in the Labor Market: Efficiency Wages	386	Chapter 18: Social Economics	416
Market Solutions to Moral Hazard in the Insurance Market: “Putting Your Skin in the Game”	387	18.1 The Economics of Charity and Fairness	417
Letting the Data Speak: Designing Incentives for Teachers	388	The Economics of Charity	417
Evidence-Based Economics: Why is private health insurance so expensive?	389	Letting the Data Speak: Do People Donate Less When It’s Costlier to Give?	419
16.3 Government Policy in a World of Asymmetric Information	390	Letting the Data Speak: Why Do People Give to Charity?	420
Government Intervention and Moral Hazard	391	The Economics of Fairness	421
The Equity-Efficiency Trade-off	391	Letting the Data Speak: Dictators in the Lab	424
		Evidence-Based Economics: Do people care about fairness?	424
		18.2 The Economics of Trust and Revenge	426
		The Economics of Trust	426
		The Economics of Revenge	428
		Choice & Consequence: Does Revenge Have an Evolutionary Logic?	429

18.3 How Others Influence Our Decisions	430	Endnotes	439
Where Do Our Preferences Come From?	430	Glossary	445
The Economics of Peer Effects	430	Credits	453
Letting the Data Speak: Is Economics Bad for You?	431	Index	455
Following the Crowd: Herding	432		
Letting the Data Speak: Your Peers Affect Your Waistline	433		
Choice & Consequence: Are You an Internet Explorer?	434		
<i>Summary</i>	434		
<i>Key Terms</i>	434		
<i>Questions</i>	435		
<i>Problems</i>	435
