

# Brief contents

## Part One

**1**

1	Business research strategies	3
2	Research designs	38
3	Planning a research project and formulating research questions	74
4	Getting started: reviewing the literature	93
5	Ethics in business research	126

## Part Two

**151**

6	The nature of quantitative research	153
7	Sampling	179
8	Structured interviewing	208
9	Self-completion questionnaires	239
10	Asking questions	257
11	Structured observation	280
12	Content analysis	301
13	Secondary analysis and official statistics	324
14	Quantitative data analysis	347
15	Using SPSS for Windows	375

## Part Three

**399**

16	The nature of qualitative research	401
17	Ethnography and participant observation	439
18	Interviewing in qualitative research	471
19	Focus groups	509
20	Language in qualitative research	529
21	Documents as sources of data	553
22	Qualitative data analysis	578
23	Computer-assisted qualitative data analysis: Using NVivo	602

## Part Four

**623**

24	Breaking down the quantitative/qualitative divide	625
25	Mixed methods research: Combining quantitative and qualitative research	641
26	Internet research methods	660
27	Writing up business research	690

## **Part One** **1**

<b>Chapter 1</b>	<b>Business research strategies</b>	<b>3</b>
	Introduction	4
	Theory and research	7
	Epistemological considerations	16
	Ontological considerations	22
	Relationship of epistemology and ontology to business research	25
	Research strategy: quantitative and qualitative	28
	Influences on the conduct of business research	29
	Key points	35
	Questions for review	36
<b>Chapter 2</b>	<b>Research designs</b>	<b>38</b>
	Introduction	39
	Criteria in business research	40
	Research designs	44
	Cross-sectional design	55
	Longitudinal design(s)	60
	Case study design	62
	Comparative design	66
	Bringing research strategy and research design together	70
	Key points	72
	Questions for review	72
<b>Chapter 3</b>	<b>Planning a research project and formulating research questions</b>	<b>74</b>
	Introduction	75

Get to know what is expected of you by your institution	75
Thinking about your research area	76
Using your supervisor	78
Managing time and resources	79
Formulating suitable research questions	82
Writing your research proposal	89
Preparing for your research	90
Doing your research and analysing your results	91
Checklist	91
Key points	92
Questions for review	92
<b>Chapter 4 Getting started: reviewing the literature</b>	<b>93</b>
Introduction	94
Reviewing the existing literature and engaging with what others have written	95
Searching the existing literature and looking for business information	107
Referencing your work	115
Avoiding plagiarism	120
Checklist	123
Key points	124
Questions for review	124
<b>Chapter 5 Ethics in business research</b>	<b>126</b>
Introduction	127
Ethical principles	132
Other ethical considerations	142
The difficulties of ethical decision making	147
Checklist	148
Key points	149
Questions for review	149

<b>Part Two</b>	<b>151</b>
-----------------	------------

<b>Chapter 6 The nature of quantitative research</b>	<b>153</b>
Introduction	154
The main steps in quantitative research	155
Concepts and their measurement	157
Reliability and validity	162
Validity	164
The main preoccupations of quantitative researchers	168
The critique of quantitative research	173
Is it always like this?	175

	Key points	177
	Questions for review	177
<b>Chapter 7</b>	<b>Sampling</b>	<b>179</b>
	Introduction	180
	Sampling error	184
	Types of probability sample	185
	The qualities of a probability sample	192
	Sample size	194
	Types of non-probability sampling	197
	Limits to generalization	203
	Error in survey research	204
	Key points	206
	Questions for review	206
<b>Chapter 8</b>	<b>Structured interviewing</b>	<b>208</b>
	Introduction	209
	The structured interview	210
	Interview contexts	214
	Conducting interviews	217
	Other approaches to structured interviewing	227
	Problems with structured interviewing	234
	Key points	237
	Questions for review	238
<b>Chapter 9</b>	<b>Self-completion questionnaires</b>	<b>239</b>
	Introduction	240
	Self-completion questionnaire or postal questionnaire?	240
	Evaluating the self-completion questionnaire in relation to the structured interview	241
	Designing the self-completion questionnaire	247
	Diaries as a form of self-completion questionnaire	250
	Key points	256
	Questions for review	256
<b>Chapter 10</b>	<b>Asking questions</b>	<b>257</b>
	Introduction	258
	Open or closed questions?	258
	Types of question	264
	Rules for designing questions	266
	Vignette questions	272
	Piloting and pre-testing questions	273
	Using existing questions	274
	Checklists	277
	Key points	278
	Questions for review	278

<b>Chapter 11 Structured observation</b>	<b>280</b>
Introduction	281
Problems with survey research on behaviour	281
So why not observe behaviour?	282
The observation schedule	286
Strategies for observing behaviour	288
Sampling	289
Issues of reliability and validity	291
Other forms of structured observation	293
Criticisms of structured observation	297
Checklist	298
Key points	299
Questions for review	299
 <b>Chapter 12 Content analysis</b>	 <b>301</b>
Introduction	302
What are the research questions?	304
Selecting a sample	305
What is to be counted?	308
Coding	311
Advantages of content analysis	318
Disadvantages of content analysis	321
Checklist	322
Key points	322
Questions for review	323
 <b>Chapter 13 Secondary analysis and official statistics</b>	 <b>324</b>
Introduction	325
Other researchers' data	326
Official statistics	342
Key points	346
Questions for review	346
 <b>Chapter 14 Quantitative data analysis</b>	 <b>347</b>
Introduction	348
A small research project	349
Types of variable	355
Univariate analysis	357
Bivariate analysis	360
Multivariate analysis	365
Statistical significance	367
Checklist	371
Key points	372
Questions for review	372

<b>Chapter 15 Using SPSS for Windows</b>	<b>375</b>
Introduction	376
Getting started in SPSS	378
Data analysis with SPSS	385
Further operations in SPSS	397
Key points	398
Questions for review	398

<b>Part Three</b>	<b>399</b>
-------------------	------------

<b>Chapter 16 The nature of qualitative research</b>	<b>401</b>
Introduction	402
The main steps in qualitative research	405
Theory and research	407
Concepts in qualitative research	408
Reliability and validity in qualitative research	410
The main preoccupations of qualitative researchers	415
The critique of qualitative research	423
Is it always like this?	424
Some contrasts between quantitative and qualitative research	425
Researcher-subject relationships	427
Key points	436
Questions for review	437
<b>Chapter 17 Ethnography and participant observation</b>	<b>439</b>
Introduction	440
Organizational ethnography	441
Access	444
Roles for ethnographers	454
Sampling	458
Fieldnotes	461
The end	465
Can there be a feminist ethnography?	466
Key points	469
Questions for review	469
<b>Chapter 18 Interviewing in qualitative research</b>	<b>471</b>
Introduction	472
Difference between the structured interview and qualitative research interviews	473
Unstructured and semi-structured interviewing	474
Sampling	497
Feminist research and interviewing in qualitative research	500
Qualitative interviewing versus participant observation	502

Checklist	506
Key points	507
Questions for review	508
<b>Chapter 19 Focus groups</b>	<b>509</b>
Introduction	510
Uses of focus groups	511
Conducting focus groups	513
Group interaction in focus group sessions	522
The focus group as a feminist method	523
Limitations of focus groups	525
Checklist	526
Key points	527
Questions for review	528
<b>Chapter 20 Language in qualitative research</b>	<b>529</b>
Introduction	530
Fine-grained approaches	531
Narrative analysis	541
Rhetorical analysis	544
Context-sensitive approaches	548
Overview	550
Key points	551
Questions for review	551
<b>Chapter 21 Documents as sources of data</b>	<b>553</b>
Introduction	554
Personal documents	555
Public documents	564
Organizational documents	566
Mass media outputs	568
Virtual outputs	570
The world as text	570
Interpreting documents	571
Checklist	575
Key points	576
Questions for review	576
<b>Chapter 22 Qualitative data analysis</b>	<b>578</b>
Introduction	579
General strategies of qualitative data analysis	582
More on coding	593
Secondary analysis of qualitative data	599
Key points	600
Questions for review	600

<b>Chapter 23 Computer-assisted qualitative data analysis: using NVivo</b>	<b>602</b>
Introduction	603
Is CAQDAS like quantitative data analysis software?	604
Learning NVivo	606
Key points	621
Questions for reviews	621

<b>Part Four</b>	<b>623</b>
------------------	------------

<b>Chapter 24 Breaking down the quantitative/qualitative divide</b>	<b>625</b>
Introduction	626
The natural science model and qualitative research	627
Quantitative research and interpretivism	630
Quantitative research and constructionism	630
Epistemological and ontological considerations	631
Problems with the quantitative/qualitative contrast	632
Reciprocal analysis	636
Quantification in qualitative research	637
Key points	639
Questions for review	639
<b>Chapter 25 Mixed methods research: Combining quantitative and qualitative research</b>	<b>641</b>
Introduction	642
The argument against mixed methods research	643
Two versions of the debate about quantitative and qualitative research	644
Approaches to mixed methods research	645
Reflections on mixed methods research	657
Key points	658
Questions for review	658
<b>Chapter 26 Internet research methods</b>	<b>660</b>
Introduction	661
World Wide Web sites or pages as objects of analysis	662
Using web sites to collect data from individuals	665
Virtual ethnography	666
Qualitative research using online focus groups	670
Qualitative research using online personal interviews	674
Online social surveys	675
Ethical considerations in Internet research	683
Key points	688
Questions for review	688

<b>Chapter 27 Writing up business research</b>	<b>690</b>
Introduction	691
Writing up your research project	693
Comparing quantitative and qualitative research: two examples	699
An example of quantitative research	699
An example of qualitative research	704
Getting published	707
Postmodernism and its implications for writing	710
Writing ethnography	715
Checklist	721
Key points	723
Questions for review	723
 Glossary	 725
References	735
Author index	760
Subject index	767
