DISTRIBUTED BY THE HALSTED PRESS DIVISION OF

JOHN WILEY & SONS

New York Toronto London Sydney

Contents

Foreword ix

1. THE STATE OF THE FIELD: GENERAL PROBLEMS AND ISSUES OF THEORY AND METATHEORY,

W. K. Estes 1

I. A Provisional Definition 1
II. Varieties of Research 2
III. *Metatheoretical Issues and Orientations* 3
IV. Theoretical Approaches 13
V. Implementing a Multidisciplinary Strategy 20
References 22

2. COGNITIVE PSYCHOLOGY: AN INTRODUCTION,

Gordon H. Bower 25

I. Introduction 25
II. Information-Processing Analysis 33
III. Overview of the Cognitive System 36
IV. Comments on Learning Paradigms 69
References 76

3. COGNITIVE THEORY APPLIED TO INDIVIDUAL DIFFERENCES, *Earl Hunt* and *Marcy Lansman* **81**

I. The Information-Processing Approach 86
II. Conclusion 106
References 107

4. COMPARATIVE PSYCHOLOGY AND HUMAN COGNITION, *Douglas Medin* and *Michael Cole* **111**

I. Some Comparative Research Strategies 112
II. Developments in Theory Construction 114
III. Selective Learning 116
IV. Concept Learning and Memory 122
V. Control Processes in Memory 126
VI. Massed and Distributed Practice 131
VII. Free Recall among a Nonliterate People 135
VIII. General Discussion: The Theoretical and Applied Benefits of Comparative Research 144
IX. Can We Apply Cognitive Research? 145
References 146

5. FROM CLASSICAL CONDITIONING TO DISCRIMINATION LEARNING, *N. J. Mackintosh* **151**

I. Introduction 151
II. Classification of Procedures 152
III. Conditioning-Extinction Theory 154
IV. Selective Association 164
V. Transfer Processes 173
VI. Conclusion 184
References 184

6. FROM DISCRIMINATION LEARNING TO COGNITIVE DEVELOPMENT: A NEOBEHAVIORISTIC ODYSSEY, *Howard H. Kendler* and *Tracy S. Kendler* **191**

I. The Meaning of Neobehaviorism 192
II. Discrimination Learning: The Past 199
III. Discrimination Learning: The Present 220
IV. From Discrimination Learning to Cognitive Development: The Future 226
V. Concluding Remarks 238
References 241

7. LEARNING, MOTIVATION, AND COGNITION,
Robert C. Bolles **249**
I. Introduction 249
II. The Old Stimulus–Response Paradigm 250
III. Challenges to the Stimulus–Response Paradigm 259
IV. The New Paradigm 269
References 278

Contents

Foreword ix

Introduction to Volume 2, *W. K. Estes* 1

1. **Pavlovian Excitatory and Inhibitory Conditioning,** *Robert A. Rescorla* 7
   - I. Introduction 7
   - II. Excitatory Conditioning 9
   - III. Inhibitory Conditioning 19
   - IV. Conclusion 31
   - References 33

2. **Learning as Adaptation,** *J. E. R. Staddon* 37
   - I. Introduction 37
   - II. The Concept of Reinforcement 39
   - III. Contingencies of Reinforcement 41
   - IV. The Effect of Reinforcement Contingencies 43
   - V. Applications to Reinforcement Schedule Effects 59
   - VI. Conclusion 91
   - References 93

3. **Adaptational Aspects of Conditioning,** *H. D. Kimmel* and *R. A. Burns* 99
   - I. Inhibition of Delay 101
   - II. Inhibition with Reinforcement 108
   - III. Response Shaping 114
   - IV. Diminution of the Unconditioned Response 122

V. Postacquisition Consequences 132
VI. Overview 137
References 138

4. **Classical Conditioning: Some Methodological–Conceptual Issues,** *I. Gormezano* and *E. James Kehoe* **143**
I. Introduction 143
II. The Classical-Conditioning Paradigm 147
III. Axiomic Use of Classical Conditioning 159
IV. Mechanisms of Conditioned Stimulus–Conditioned Response Acquisition 166
V. Summary 172
References 174

5. **The Classical–Instrumental Distinction: Reflexes, Voluntary Behavior, and Categories of Associative Learning,** *Eliot Hearst* **181**
I. Introduction 181
II. Some Historical Perspectives 187
III. Classical versus Instrumental Conditioning 192
IV. Conclusions and Prospectus 216
References 221

6. **Perspectives on the Behavioral Unit: Choice Behavior in Animals,** *Charles P. Shimp* **225**
I. Decision Making and Conservative Behaviorism 225
II. Decision Making and Liberal Behaviorism 229
III. Choice Behavior: Data from Discrete-Trials Paradigms 235
IV. Choice Behavior: Data from Free-Operant Paradigms 244
V. Choice Behavior: Theories 256
VI. Conclusions 262
References 263

7. **Stimulus Selection in Associative Learning,** *Jerry W. Rudy* and *Allan R. Wagner* **269**
I. Introduction 269
II. Nonselective Elementistic Theory 272
III. Selective Elementistic Theory 282
IV. Nonselective Configural Theory 288
V. Selective Configural Theory 294
VI. Conclusion 296
References 299

8. Stimulus Generalization, *Eric G. Heinemann* and *Sheila Chase* **305**

I. Some Basic Terms 306
II. Theories of Generalization 309
III. Comments on Experimental Methods 320
IV. Results of Experiments 323
V. Concluding Remarks 346
References 346

JOHN WILEY & SONS

New York Toronto London Sydney

Contents

Foreword ix

Introduction to Volume 3, *W. K. Estes* 1
Methodology 2
Conceptions of Learning and Memory 4
Classical Concepts and Continuity 5
Cognition and Motivation 8
Applications of Learning Theory 8
References 9

1. **Methodology of Human Learning,** *Leo Postman* 11
I. The Distinction between Learning and Memory 11
II. Differentiation of Stages 14
III. Measurement of Retention 56
References 60

2. **An Introduction to Research on Individual and Developmental Differences in Learning,** *William D. Rohwer, Jr.* 71
I. Performances Produced by Learning from Itemized Material 72
II. Strategies for Research on Learner Differences 74
III. Selected Examples of Research on Learner Differences 87
IV. Conclusions 99
References 100

3. Cognitive Factors in Classical Conditioning, *Leonard E. Ross* and *Susan M. Ross* **103**
I. Introduction 103
II. Subject Involvement in Classical Conditioning: Set and Awareness as Cognitive Factors 104
III. Cognitive Processes in Classical Conditioning 109
IV. Intellectual Differences and Classical Conditioning 119
References 127

4. Theories of Discrimination Learning and Learning Set, *Douglas L. Medin* **131**
I. Introduction 131
II. An Information-Processing View of Discrimination Learning 132
III. Early Discrimination Theories and Issues 134
IV. Related Developments in Discrimination Learning Theory 142
V. Reemergence of Attention Theories 151
VI. Recent Trends in Discrimination Learning Theory 157
VII. Summary 162
References 166

5. Probability Learning and Sequence Learning, *Jerome L. Myers* **171**
I. Introduction 171
II. Probability Learning 172
III. Sequence Learning: Conditional Event Schedules 185
IV. Sequence Learning: Deterministic Schedules 193
V. Conclusions 201
References 201

6. Reinforcement and Human Memory, *Thomas O. Nelson* .. **207**
I. Introduction 207
II. Learning versus Performance 208

III. Information versus Affect 214
IV. Delay of Reinforcement 224
V. Changing Contingencies of Reinforcement 233
VI. Summary 243
References 245

7. Motivation and Reward in Human Learning: A Cognitive Approach, *Joseph R. Nuttin* **247**
I. Introduction 247
II. Basic Concepts 248
III. Open Tasks and the Informative Function of Outcomes and Events 252
IV. The Origin of Cognitive-Dynamic Structures: Tasks, Intentions, and Task Tension 255
V. The Role of Motivation in Attentional Learning 258
VI. Retention of Significant Events and Affective Learning 267
VII. Contradictory Results 270
VIII. Performance and Recall: The Law of Instrumentality 272
IX. Conclusion: Diversity and Continuity in the Learning Process 277
References 277

8. Motivation from the Cognitive Perspective, *Bernard Weiner* **283**
I. The Mind–Body Problem 284
II. A Guiding Framework 285
III. Cognitions and the Initiation of Behavior 287
IV. Cognitions and Goal Attainment 291
V. Cognitive Inhibitors 297
VI. The Information Value of Behavior 299
VII. General Summary 301
VIII. Attribution Theory 302
References 307

9. Learning Theory and Behavior Therapy, *Alexander M. Buchwald* **309**
I. Introduction 309
II. Treatment Based on Operant Conditioning 314
III. Theoretical Implications 331
References 346

Contents

Foreword ix

Introduction to Volume 4, *W. K. Estes* 1
I. Trends in Research on Memory 1
II. Organization of Volume 4 3
III. *On the Varieties of Memory* 3
IV. Concepts and Issues Relating to the Information-Processing Approach 6
V. The Updating of "Trace" and "Association" 9
VI. Developmental Aspects of Attention and Short-Term Memory 11
References 14

1. **Retrieval of Memories: A Psychobiological Approach,** *Norman E. Spear* 17
I. Introduction 17
II. Memory and Memory Processing: Some Background 20
III. Historical Steps in the Study of Memory Retrieval 23
IV. Orientation and Conceptual Framework 32
V. Experimental Analyis of Memory Retrieval 39
VI. Conventional Paradigmatic Methods in the Study of Memory Retrieval with Animal Subjects 63

VII. Basic Issues 69
VIII. Summary and Protuberant Issues 79
References 82

2. Methodology in the Study of Human Memory, *Bennet B. Murdock, Jr.* **91**
I. Introduction 91
II. Historical Background 92
III. Item Information 98
IV. Associative Information 107
V. Serial-Order Information 113
VI. Free Recall 120
VII. Closing 127
References 128

3. The Concept of Primary Memory, *Fergus I. M. Craik* and *Betty Ann Levy* **133**
I. Introduction 133
II. Primary Memory: Historical Development of the Concept 136
III. PM as a Separate Store 142
IV. PM as a Transient Trace 157
V. PM as a Different Retrieval Cue 162
VI. PM as a Process 163
VII. Conclusions 168
References 171

4. Capacity Limitations in Information Processing, Attention, and Memory, *Richard M. Shiffrin* **177**
I. Introduction 177
II. Capacity Limitations 178
III. Active Memory: STS 213
IV. Concluding Remarks 229
References 229

5. Perceptual Learning and Attention, *David LaBerge* **237**
I. Stages of Perceptual Learning 239
II. Coding Models of Perception, Memory, and Attention 243
III. Perceptual Learning: Methodology and Evidence 256
References 270

6. Auditory Information Processing,
Dominic W. Massaro **275**
I. Introduction 275
II. Feature Detection 278
III. Primary Recognition 280
IV. Preperceptual and Synthesized Codes 295
V. Secondary Recognition 298
VI. Auditory and Abstract Memory 303
VII. Generated Abstract Memory 313
VIII. Similarity to Other Models 315
IX. Concluding Remarks 316
References 316

7. Memory Storage Dynamics, *Wayne A. Wickelgren* **321**
I. Consolidation 324
II. Interference 330
III. Decay 341
IV. Interaction of Acquisition and Storage 347
V. Retrieval Factors 350
References 355

8. Fact Retrieval Processes in Human Memory,
Keith T. Wescourt and *Richard C. Atkinson* **363**
I. Introduction 363
II. Human Memory as a Fact Retrieval System 364
III. Mechanisms of Fact Retrieval 374
IV. Temporal Factors in Retrieval Control 392
V. Concluding Remarks 407
References 409

Contents

Foreword ix

1. **The Information-Processing Approach to Cognition: A Confluence of Metaphors and Methods,** *W. K. Estes* 1
   - I. Behavioral versus Informational Modes of Description 1
   - II. Sufficiency of Information-Processing Models 4
   - III. Principal Organizing Concepts 7
   - IV. Information Processing and Cognitive *Development* 11
   - V. Information Processing in Human Behavior 13

   References 16

2. **Elementary Information Processes,** *W. G. Chase* 19
   - I. *Introduction* 19
   - II. Measuring the Speed of Thought Processes: A Historical Perspective 19
   - III. Examples of Elementary Processes within Cognitive Tasks 36

   References 87

3. Visual Processing and Short-Term Memory, *M. T. Turvey* . . **91**
I. Introduction 91
II. Visual Information Processing: A Preliminary Portrayal 91
III. Visual Information Processing in Historical Perspective 97
IV. Visual Processing as a Version of Indirect Realism 100
V. Rationalizing Iconic Storage 101
VI. Isolating the Brief Icon 102
VII. Nonvisible Visual Representation 108
VIII. The Notion of the Icon as a Precategorical Memorandum 111
IX. On the Malleability and Docility of the Icon 114
X. Two-Field Theory: An Introduction 121
XI. Masking Arises at More Than One Processing Level 126
XII. Integration and Interruption as Image-Language Concepts 128
XIII. Integration and Interruption as Channel-Language Concepts 129
XIV. Three Interpretations of Nonmonotonicity 131
XV. N-Field Theory? 135
References 137

4. Chronometric Analysis of Abstraction and Recognition, *Michael I. Posner and Miriam G. K. Rogers* **143**
I. Introduction 143
II. Abstraction 148
III. Psychological Pathways 160
IV. Recognition 177
V. Conclusions 183
References 184

5. Cognitive Processes that Resemble Perceptual Processes, *Roger N. Shepard and Peter Podgorny* **189**
I. Introduction 189
II. Basic Paradigms and Results 190
III. Discussion and Conclusions 224
References 229

6. **Natures of Problem-Solving Abilities,** *James G. Greeno* **239**
I. Typology of Problems 241
II. Problems of Inducing Structure 242
III. Problems of Transformation 245
IV. Problems of Structure and Transformation 252
V. Problems of Arrangement 255
VI. Transformation of Arrangements 260
VII. Inducing Structure in Arrangement Problems 262
VIII. General Abilities and Basic Processes 265
References 267

7. **Information-Processing Theory of Human Problem Solving,** *Herbert A. Simon* **271**
I. A General Theory 272
II. Extensions of the Theory 279
III. Methodological Questions 287
References 293

8. **Application of Learning Models and Optimization Theory to Problems of Instruction,** *Verne G. Chant and Richard C. Atkinson* **297**
I. Philosophical Approach 297
II. Previous Research 300
III. Areas of Further Research 315
References 317

Contents

Foreword vii

1. **Theories of Semantic Memory,** *Edward E. Smith* 1
   - I. Introduction 1
   - II. Distinctions Among Semantic-Memory Models 7
   - III. Models of Semantic Representations and Retrieval Processes 13
   - IV. Generality, Extendability, and Sufficiency of Semantic-Memory Research 37

   References 52

2. **Comprehension and Memory of Text,** *Walter Kintsch* 57
   - I. Text Bases 58
   - II. Inferences 67
   - III. Schemata 77

   References 84

3. **Coding Processes in Memory,** *Neal F. Johnson* 87
   - I. Associationism 88
   - II. Organizational Processes in Memory 90
   - III. A Coding View of Memory 95
   - IV. A Coding View of Perceptual Processing 114
   - V. Summary and Conclusions 126

   References 127

4. The Word-Superiority Effect: Perceptual Learning from Reading, *Jonathan Baron* **131**
I. History: The Effect That Would Not Go Away 132
II. What Knowledge? 140
III. Processing Stages in Word Recognition Tasks 148
IV. The Role of Voluntary Control, Set, and Automaticity 152
V. The Mechanisms Behind the Word-Superiority Effect 153
VI. The Word-Superiority Effect and Reading 158
VII. Implications for Pattern Recognition as a Learned Skill 160
References 164

5. Speech Perception, *David B. Pisoni* **167**
I. Introduction 167
II. Linguistic Structure of Speech 168
III. Acoustic Structure of Speech Sounds 174
IV. Perception of Speech Sounds 186
V. Basic Issues in Speech Perception 208
VI. Levels of Processing and Theories in Speech Perception 217
References 226

6. On the Organization and Core Concepts of Learning Theory and Cognitive Psychology, *W. K. Estes* .. **235**
I. Considerations of Content and Structure 235
II. *Core Concepts and Principles* 244
References 284
