

## TABLE OF CONTENTS

|   |     |
|---|-----|
| Preface .....   | 4   |
| Summary .....   | 6   |
| Zusammenfassung .....   | 7   |
| Résumé .....  | 9   |
| Riassunto .....   | 10  |
| Introduction .....  | 12  |
| Stratigraphy and Petrography .....  | 18  |
| Helvetic .....  | 19  |
| Aar Massif .....  | 20  |
| Pre-Variscan polycyclic metamorphic basement .....  | 21  |
| Pre- and early Variscan sedimentary and volcaniclastic rocks<br>(Cavardiras Group) .....        | 33  |
| Early Variscan plutonic rocks (Rötifirn Group) .....  | 35  |
| Middle Variscan plutonic rocks (Fruttstock Group) .....   | 40  |
| Late to post-Variscan metasedimentary and volcaniclastic rocks .....                            | 42  |
| Late to post-Variscan plutonic rocks (Haslital Group) .....                                     | 49  |
| Parautochthonous and autochthonous cover .....  | 53  |
| Southeastern border zone .....  | 59  |
| Tavetsch Nappe .....  | 60  |
| Glarus Nappe Complex .....  | 61  |
| Gotthard Nappe .....  | 62  |
| Pre-Variscan polycyclic metamorphic basement .....  | 64  |
| Pre- and early Variscan metasedimentary and volcaniclastic rocks<br>(Val Rondadura Group) ..... | 68  |
| Late to post-Variscan plutonic rocks .....  | 71  |
| Autochthonous and parautochthonous cover .....  | 73  |
| Scopi Zone .....  | 78  |
| Piora-Peiden Zone .....   | 78  |
| Camosci Nappe .....   | 79  |
| Penninic .....  | 79  |
| Rock bodies without tectonic attribution or of unknown age .....                                | 81  |
| Tectono-metamorphic evolution .....   | 87  |
| Pre-Permian evolution .....   | 87  |
| Permian magmatism and tectonics .....   | 90  |
| Alpine metamorphism .....   | 94  |
| Alpine tectono-metamorphic evolution .....  | 97  |
| Fissures and open joints .....  | 102 |
| Cooling and exhumation history .....  | 102 |
| Additonal information and open questions .....  | 105 |
| References .....  | 111 |
