

PREFACE – 10

FOREWORD – 12

INTRODUCTION – 18

EMBRACING *the* POWER *of* AI – 29

PART I

THE NEW FRONTIER – 30

OVERVIEW – 33

1: AI AND OTHER BUZZ WORDS – 34

Artificial Intelligence – 34

Cognitive Computing – 35

Artificial General Intelligence – 36

Artificial Narrow Intelligence – 38

Natural Language Understanding – 38

Other – 39

2: MACHINE LEARNING – 41

Intuitive Notion – 41

Supervised, Unsupervised, and

Reinforcement Learning – 42

Neural Networks and Deep Learning – 45

3: DATA SCIENCE – 50

Area of Focus – 50

Problem Framing – 52

Data Understanding and Processing - 52
AI and ML Algorithms Tweaking - 53

PART II

TIMING - 54

OVERVIEW - 57

4: AI WINTERS - 58

Seasons - 58

5: RIPE FOR BLOOMING - 62

Maturity - 62

PART III

FROM MYTH TO MAKING SENSE - 66

OVERVIEW - 69

6: DEMYSTIFYING AI - 70

Perspective - 70

Key Aspects - 73

Examples - 76

7: WHAT DOES AN AI PROJECT LOOK LIKE? - 86

The Team - 86

The Process - 88

8: WHAT AN AI PROJECT IS NOT - 96

Naturally Agile - 96

Just APIs - 98

Pure Chaos - 98

PART IV

TOOLS - 100

OVERVIEW - 103

9: AI TOOLSET LANDSCAPE - 104

Cognitive Services - 104

Specific APIs - 106

Build Tools - 107

10: USING READY-MADE AI vs. BUILDING OUR OWN - 1

Trade-Offs - 110

11: SOME CORE TOOLS: ALGORITHMS - 113

Classification - 114

Regression - 117

Neural Networks - 120

PART V

AI AT WORK - 126

OVERVIEW - 129

12: SAMPLE APPLICATIONS AND PROJECTS - 130

Use Case vs. Business Verticals - 130

Recommender Systems - 131

Assistants & Chatbots - 132

Seamless Shopping User Experience - 133

Process Optimization - 133

Revenue Optimization - 135

Wellness - 136

13: ROUNDING IT UP - 137

Small Recapitulation - 137

Biases - 138

Regulation and Policies - 139

Creativity and AI - 140

Further Studies - 142

14: THE DARK SIDE - 143

Unknown Unknowns - 143

La Resistance - 144

EPILOGUE - 146

DISCLAIMER - 148

APPENDICES - 150

Glossary - 152

References - 160

Acknowledgments - 164

Authors - 166
