

Table of Contents

Preface	1
Chapter 1: Installing Gephi	5
Downloading the software	6
Installing the software	7
The Gephi interface	11
Toolbar 1 – selectors, pencils, and brushes	13
Toolbar 2 – graph and node functions	14
Toolbar 3 – customizing nodes and edges	15
Summary	16
Chapter 2: Creating Simple Network Graphs	17
Understanding the Gephi workspace	18
The Graph window	18
The Ranking window	19
The Layout window	21
Working with the default layout options	22
Using an existing dataset	23
Creating our first network graph	23
Viewing data in the Data Laboratory	23
Experimenting with layouts	24
Customizing the graph	28
Summary	30
Chapter 3: Exploring Additional Layout Options	31
Exploring base layout options	32
Force layout options	32
Fruchterman-Reingold options	33
Yifan Hu options	34
Locating available layout plugins	34
Downloading and installing the plugins	35

Using the layouts	35
The Circular layout	36
The Dual Circle layout	37
The Radial Axis layout	37
The Concentric layout	38
The OpenOrd layout	39
Other options	40
Finding the most effective layout	40
Summary	41
Chapter 4: Creating a Gephi Dataset	43
Basic data requirements	43
Sizing nodes and edges	44
Building a datafile in Gephi	45
Adding nodes	46
Adding edges	46
Using spreadsheet files in Gephi	48
Creating and importing a spreadsheet	48
Importing spreadsheet files	49
Importing MySQL data	52
Saving your file	54
Summary	54
Chapter 5: Exploring Plugins	55
About plugins	55
Enhancing Gephi with plugins	56
Exploring plugin options	57
Plugin categories	58
Using plugins to improve productivity	59
Downloading and installing plugins	60
Summary	64
Chapter 6: Advanced Features	65
Filters	65
Filter options	66
The Equal filter	67
Working with Partition filters	70
Using the Degree Range filter	71
Working with the Ego Network filter	71
Statistics	72
Working with key statistics	73
Rankings	75
Summary	80

Chapter 7: Deploying Gephi Visualizations	81
Customizing the visualization	81
Customizing the nodes and node labels	83
Customizing the edges and edge labels	84
Exporting the graph	86
Exporting to a graph file	86
Exporting to image formats	87
Using Seadragon Web Export	87
Summary	90
Appendix: Network Visualization Resources	91
Online resources	91
People you may need to know	92
Books	93
Tools	93
Index	95
